

Tushar Ratanghayra

Healthcare IT Strategy & Implementation

With in-depth domain knowledge of the healthcare landscape and more than 2 decades of designing and delivering healthcare IT solutions to multiple organizations, Tushar's innovative journey across the ever-changing healthcare landscape has been incredible.

Care inventions have transformed from just clinical, diagnostic, and therapeutic advances to revolutionizing the entire care experience and bringing all care stakeholders under a common ecosystem. Tushar, with his extensive experience strategizing and implementing many seemingly impossible assignments across Asia Pacific, Middle East and Africa has mastered the art of designing & delivering solutions in this constantly remodeling environment. He excels in visualizing and successfully executing healthcare journeys to success by effectively integrating people, process, and technology.

As co-founder & CEO, Tushar spearheads the quest for achieving Smartify Health's vision.
